

TANKLESS WATER HEATER MAINTENANCE AND RETURN LINE SYSTEM

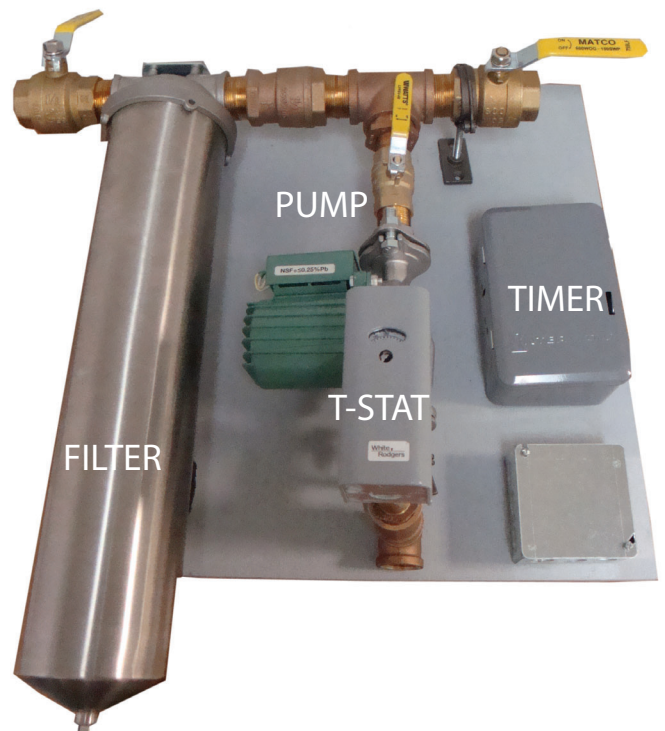

NHW
MODEL SP500

NSF - Filter
NSF - Pumps
NSF - Other Codes and Stamps

Heavy Duty Stainless Steel

Features:

- Silicon Phosphate Filter in HD316 Stainless Steel Housing. NHW's special formula of keeping phosphate lime from building up in the tankless heat exchanger, greatly reducing maintenance.
- Return Line Pump - Properly sized pump for return line applications
- T-Stat - Pumps T'stat keeps temp variations with small range. Virtually eliminates hot and cold "slugs" of water.
- Timer - Digital timer saves money by turning of recirculation lines during off (night) hours. Can save up to \$500 per month per location.
- Electric Junction Box - Mounted for quick and easy wiring.
