NGD Option

Remote Duplex Outlet

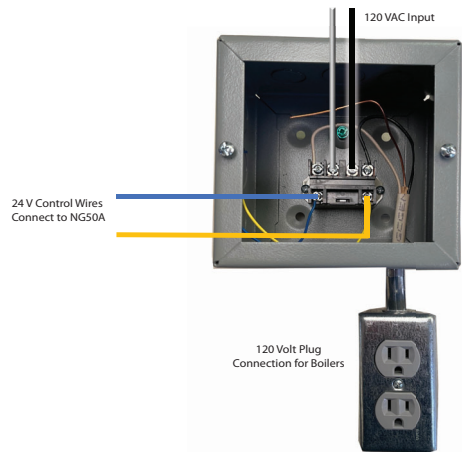

Features & Benefits

- Unit has a double pole single throw relay UL listed
- 24 Volt coil - connects to NG50A
- 120 V Duplex Outlet provides power to boilers (up to 20 amps)
- Can be remotely mounted up to 500 feet from NG50A
- Wall mount NEMA 1 screw cover junction box
- Easy to mount (indoor only)
- Electrical knock-outs provided

Exhaust Duplex Outlet - This option disrupts the 120 Volt power to the duplex outlet causing the boilers to cease operation.
